

# CENTER FOR NONPROFIT LAW, PC

To The Supporters and Donors of MaterPax Global Maternal and Child Health Mission:

This letter is being written on behalf of our client, MaterPax Global Maternal and Child Health Mission. We have been hired to apply to the IRS for a determination letter recognizing the organization's tax exempt, 501(c)(3) status. Our law office specializes in the field of nonprofit law, and you may rely on this letter of professional legal opinion as a reasonable basis for taking a deduction for any contributions you make to this organization, prior to the IRS's formal determination of its 501(c)(3) status.

We are familiar with this organization's corporate documents, purposes, plans, programs, activities, expenses, income and general financial situation, all of which comply with the state and federal laws and regulations governing public benefit nonprofit organizations described in Section 501(C)(3) of the Internal Revenue Code.

Based on our long years of experience and legal expertise in working with nonprofit organizations, we are confident that it will successfully receive a favorable determination of its 501(c)(3) tax deductible status from the IRS. According to IRS Publication 557 (Chapter 1- Application, Approval and Appeal Procedures – Effective Date of Exemption), the corporation tax deductible status will be granted retroactively to the date of the organization's filing of proper Articles of Incorporation, which is December 19, 2025. According to IRS regulations, contributions will be granted tax deductible status, retroactive to the date the articles of incorporation were filed.

If you give the organization a donation, you should save this letter with your tax records, along with the separate receipt you will receive from the organization itself which provides more specific information about the amount and timing of your donation. If for any reason MaterPax Global Maternal and Child Health Mission does not receive its full tax deductible status as expected, all donors will be notified and advised to amend their tax returns.

Very truly yours,

David E. Atkin
